

Tuba BALKAN

Computer Engineer

A self-disciplined, harmonious and hardworking computer engineer student. I have a clear, logical mind with a practical approach to problem-solving and a drive to see things through to completion. I have very good communication skills, enabling me to effectively communicate with people and compatibly work with team members. My greatest passion in life is using my code aims to benefit other people and organizations.

5) GlobalAIHub-Bootcamp-Project

Python

I made visualizations using Netflix Original Movies and IMBD Ratings using Python language.
According to the data set, in which language the long-running films were created, I found the IMBD values of the films shot between certain dates and made a visualization. I listed the movies in the data set in certain categories.
